Get Away from the Problem of Scars and Pimples by [Thakur7](#)

Article published on December 28th 2011 | [Acne](#)

Everybody wants a beautiful and glowing skin. But, what about these scars and pimples on the face that destroys the beauty of your skin and face too. Have you ever think about the root cause of these scars and pimples? Why actually you face from such a problem while many people around you have a clear and beautiful skin. One of the main cause maybe your skin type but your surrounding matters a lot when it comes to your skin.

Most of the teenagers who are more conscious about their skin usually suffer from scars or acne due to hormonal changes. With the passage of time you can get rid of these acnes but still it take couple of years to get rid of them. Also, after that you will not get your clear and beautiful skin back again. But, now with the advancement in medical skin everything is possible. You can get the best medicines or cream to cure your acnes. If we are talking about best, what can be best then Finacea gel. When you suffer any type of reaction, burning, itching or excessive facial hair growth then you should apply Finacea gel.

Finacea gel is one of the best way to get rid of your acnes for life. Finacea gel contains anti-inflammatory and antibacterial properties that help to reduce pimples, scars and redness. Be careful while applying Finacea gel. Finacea gel is used externally on the skin over the acnes. Make sure that you should not use Finacea gel internally. It can harm you further. Use the Finacea gel on the affected area twice a day once in morning and then in evening so as to get better results. Before using the gel make sure that you wash your face with cleanser or mild soap. After applying the gel washes your hands with soap so that you get rid of gel completely. Be careful while applying this gel and make sure you apply this gel only in affected area. By chance if the gel comes in contact with your eyes or mouth, immediately wash it with soap and lots of water.

Store the gel at room temperature. Moreover, if you are using Finacea gel make sure that you are not using any other gel or medicine as too many medicines may spoil your skin even more. Make sure you should not use Finacea gel if you suffer from any allergy related to ingredients like propylene glycol as it contain it in high amount. If you use Finacea gel for couple of days and regularly with proper care and by following proper precautions you surely get rid of your acnes.
