The Essentials about the BlackBerry Enterprise Server 5 by Samantha Cole

Article published on March 9th 2012 | Business

It's only normal to find a business or company that operates the BlackBerry Enterprise Server software. This software has turned into an integral part in guaranteeing an organized and secure workflow for any company or business that utilizes it. BlackBerry has recently revealed the most current version, the BlackBerry Enterprise Server (BES) Express 5.0. Maybe it's time that you see the various benefits that BlackBerry Enterprise Server Express software can provide you and your company.

BES Express 5.0 offers you not only with an exclusive accessibility to your calendar, work contacts, and email, but also gives you and your IT department a highly stable and easy to operate wireless solution to your everyday business transactions. If you already have an Internet-capable Blackberry service plan, BlackBerry can be obtained for free, and you no longer have to spend for any added software license expenses for your business. Moreover, you don't need to pay any supplementary costs monthly. The bills you pay per month for your wireless provider will also feature your BES services.

BES Express 5.0 Requirements. For an end user to utilize (BES) Express 5.0, he needs to have a BlackBerry smartphone and a subscription to an Internet-capable BlackBerry service plan. A business IT manager will need 1) the latest edition of Windows Small Business or Microsoft Exchange Server 2) to download and install the BES Express software on the recently mentioned software. If you're an end user, your IT officer will just include your BlackBerry smartphone into the system so you can commence to utilize the service.

BES Express 5.0 Features. BlackBerry Enterprise Server 5 has developed business email functions that enable you to connect your work email account to a very safe business email system. It is also possible to sync your BlackBerry inbox to the inboxes of your other email accounts so you won't have to manage two inboxes. An email deleted from your BlackBerry will be removed from your other inbox as well.

BlackBerry Enterprise Server Express 5.0 also has advanced calendar functions. It will be effortless for you to check or download your calendar attachments as well as forward them to your colleagues. You can also view your co-worker's status if they're working or free for the moment. This makes scheduling your meetings relatively effortless.

If you've ultimately determined to get the BlackBerry Enterprise Server v5.0 for you and your business, do not hesitate to ask your wireless provider about it today.
