Custom size labels are competitive, sticky and innovative label choices. By using customised labels, you will be able to get your business image over competitor promptly. Today, personalised labels are being rapidly used by small and large scale industries for proactive business marketing campaign worldwide.

Materials: Custom label choices are available in permanent and removable adhesive i.e. matte white, semi gloss, and high gloss. Other materials used in manufacturing custom labels include: matte white opaque, matte white polyester, matte white polyethylene, and matt clear polyester, which are available in permanent adhesive only. Full colour materials available in permanent adhesive are matte red, green, yellow, blue, black, silver and gold. Permanent adhesive, Matt Fluorescent is available in a wide variety of colours i.e. green, yellow, pink, red and orange. Some other materials play a pivotal role in enhancing the product quality i.e. matt permanent, matt black vinyl permanent and matt off white permanent.

Tool: Durable tool is used in creating custom size labels that determines the sizes and shapes of the labels. This tool is made from steel using laser machine for accuracy. Once made this is then magnetically wrapped on to a magnetic cylinder with a repeat length of 297mm. It is A4 length.

How and Why Are Custom Labels Compatible Marketing Tool? The main reason behind the compatibility and versatility of the customised labels is critical role of inkjet printer, laser printers, photocopier, flexo, digital, and thermal printers.
