The benefits of Clip in Hair Extensions by .

Article published on July 12th 2012 | [Advertising](#)

Clip in hair extensions are a great way to add length, texture and colour to your hair as and when you want to create a new look or a different style. Many people use clip in hair extensions when they are trying to grow their own hair. Using clip in hair extensions allows people to create many different hair styles without having to cut or colour their own hair and they are ideal for special occasions and nights outs. If you're thinking of having a fringe cut into your hair then why not purchase some clip in fringes to see if you think a fringe suits you and find the best style of fringe for your face shape. A fringe is a big decision as it can take a long time to grow back. Clip in fringes allow people to have a fringe as and when they want without having to commit to a permanent fringe.

The best type of clip in hair extensions and clip in fringes are ones that are made from natural hair. Some of the finest clip in hair extensions are made from 100% Remy Indian Hair which has been ethically sourced. Indian hair is fine in texture and has a natural wave when wet. The advantage of clip in hair extensions made from natural hair is that you can wash, dry and style the extensions just like your own hair without damaging them unlike synthetic clip in hair extensions. Lots of people find it hard to find certain colours of clip in hair extensions such as ash blondes, beige blondes and ash brown shades as not many clip in hair extensions are made in these colours. These colours are now available in natural clip in hair extensions and clip in fringes.

By investing in some high quality Remy Indian clip in hair extensions or clip in fringes you can get a new look fast, see if a new style will suit you, thicken an existing fringe, hide a short or side fringe, add depth and glamour, add new colours and not have to wait for your current hairstyle to grow out to achieve a new look.
