Leimo Hair-Clinic-in-a-Box: a New Convenient Way to Manage the Ultimate Bad Hair Day by [Nathalia Perske](#)

Article published on January 18th 2012 | [Alternative Medicine](#)

Sufferers usually call it the 'ultimate bad hair day'. To some, it's not just a bad hair day, it is a catastrophe. The sadder news is that there is no instant method, aside from a surgical hair restoration, to deal with it - safely, effectively, and conveniently. The condition? Hair loss or baldness.

But Leimo offers all that. Leimo designs a new method of solving that ultimate bad hair day â€” safely, effectively, and conveniently â€” through the Hair-Clinic-in-a-Box.

The Leimo Hair-Clinic-in-a-Box is a one-year supply of one (1) Leimo Personal Hair Laser Starter Kit and eight (8) sets of the Leimo Hair Treatment Pack bundled in one box and shipped for free. With the Hair-Clinic-in-a-Box, Leimo customers will no longer have to run out of supply for a year or worry about running to expensive hair loss clinics.

Leimo Hair Treatment Pack

The Leimo Hair Treatment Pack contains Leimo's five (5) organic-based wet products.

The Bio-Cleansing Shampoo cleanses the scalp through a rich blend of mistletoe and fennel extracts that help slow down hair loss as it washes away excess sebum while assisting in blocking dihydrotestosterone (DHT) build-up in the scalp. The Thickening Conditioner gives body to the hair by moisturizing and strengthening the hair fibres. The Scalp & Body Scrub removes dirt, dead skin cells, and excess sebum that accelerate hair loss from the scalp, leaving the scalp clean and in healthy condition.

The Scalp Therapy Day Treatment contains saw palmetto extracts which possess DHT-inhibiting effects to prevent hair loss. The Scalp Serum Night Treatment repairs damaged hair follicles by also inhibiting DHT production through an ultra-concentrated natural formula.

Leimo Personal Hair Laser Starter Kit

Enclosed in the Leimo Personal Hair Laser Starter Kit is a set of the five (5) Leimo Wet Products and the Leimo Personal Hair Laser. The Personal Hair Laser is a laser comb device that restores lost hair safely and effectively through the principle of photobiostimulation.

Money-Back Guarantee

Leimo offers a money-back guarantee with the Leimo Personal Hair Laser. Users who are not ultimately satisfied with their results within a year of treatment using the 8 sets of the Leimo HTP in conjunction with the laser device as recommended are entitled to a money-back guarantee.
