Bebo Kobo to Take Charge of London by [Bakergarcia](#)

Article published on May 10th 2012 | [Business](#)

Bebo Kobo the man who is responsible for bringing revolutionary changes in the economic slowdown of the London is capable for taking the charge of the whole London city. Its true that Israel is the birth place Bebo Kobo and he has spend early days of his life there but later when he realized the wide growth potential of the global market he moved away and experienced first success while doing fashion business in London.

After tasting success Bebo Kobo never looked back and moved on achieving more and more success in not only one field but in various fields. He took the charge of the Camden market project, invested huge amount of money and finally came up with a market, which is very popular market as well as an entertainment hub in whole of the London city. The basic reason behind the development of the Camden market or the Bebo Kobo market is to improve the condition of the small and poor vendors. With lot of hard work and creative ideas he changed the look of the entire city, he transformed that ugly looking market into big shopping malls, apartments, business centers, multiplexes, restaurants and so on.

Bebo Kobo has carried development projects not only for London but also in various other parts of the world. You will be amaze to know that many business persons as well as political leaders have personally requested Bebo Kobo to handle some of the big projects. Some of the successful projects outside the London city are Flea market in the small city of Opa Locka, Ditto Apparels Project in California and various other projects, which were successfully completed by Bebo Kobo.

Other than real estate business, Bebo Kobo is well established in other business as well and you will find it quite interesting to know about them. He is has successfully acquired the business of development of yachts from broken ships. This has become a status symbols specially for the rich people who have Rolls Royce and big bungalows in London city.

Day by day these luxurious yachts, which are made of old and broken ships are gradually becoming very popular among the rich people who are showing interest in buying one for them. Other than this, there are several other projects about to get started in London as well as in various other parts of the world.
