Brighten up any home with Canvas Prints by [Mary Porter](#)

Article published on July 5th 2012 | [Business](#)

Whether you're looking for a unique and personal gift for a loved one or simply a way of brightening up your home, canvas prints may be the answer.

If you're looking for a present, canvas prints are a wonderful way of showing someone you care. Choose a favourite snap, a meaningful photograph or a funny shot and immortalise it as canvas prints for all to see. Canvas prints are a great way of remembering a favourite holiday or immortalising a memorable childhood shot. Canvas prints can become the centre piece for someone's living room, bedroom or even a home office. Adding a personal touch to any room, canvas prints are a fantastic way of reliving memories and creating unique and meaningful pieces of artwork.

If you would like canvas prints for your own home you may again choose favourite pictures from holidays, events or parties, or you may favour a landscape shot which helps to create the perfect mood in your house. Use tropical, beach shots for your canvas prints if you want to add a warm touch to your living room. Leafy, green pictures are great for relaxing canvas prints and choosing a romantic shot for your bedroom canvas prints is a great way of setting a wonderful mood.

Choosing the right snap is just one element of creating perfect canvas prints. You'll also need to think about the size of canvas you would like. A small, perfectly square shape, say 8" x 8", may be perfect for a photo of your newborn baby. Large canvas prints are popular for hanging above fireplaces. This could capture a special day – perhaps a wedding or birthday, or perhaps feature the whole family for a lovely, memorable print. Another popular choice is to split a landscape image into three separate prints which sit slightly apart. This creates abstract canvas prints which are still incredibly personal.

Of course, your canvas prints do not have to be a photograph taken by yourself or your loved one. Instead you may have a favourite artist or photograph which is ideal for canvas prints. The beauty of canvas prints is the versatility and ability you have to create the perfect piece of wall art.

Canvascustomprints.co.uk are specialists in canvas prints. Their user-friendly website makes it incredibly easy to purchase canvas prints. Simply upload your image using their simple software, choose the size you require (they offer any size from 8" x 8" upwards) and make your payment.
