Don't fall victim to identity fraud with Home Shred UK's super and safe shredding service by [Mary Porter](#)

Article published on July 14th 2012 | [Business](#)

Identity Theft is one of the fastest growing crimes in the UK; this crime has worryingly risen by 20% over the last 5 years. It is estimated that over 100,000 people are directly affected by identity fraud every year which shockingly costs the country £2.7 billion annually. The other problem this causes which is often a more hidden one is where people have had their credit rating unfairly damaged by the fraudsters which affects ability to secure low cost credit and mortgages, and very often people do not realise until a long time after the fraud has occurred!

It is worrying how easy it is for these criminals to get hold of your sensitive, personal information if your documents are not disposed of properly. We believe that prevention is better than cure and prevention is our domain! Home Shred UK offers a low cost practical shredding service known throughout the country for our reliability and utmost security. Headed by John Cauchi, who with a wealth of industry experience along with the passion we have for our work we believe we deserve our place at the top of the pile for the UK's best shredding companies.

Home Shred UK specialise in providing a tailor made shredding service to both private individuals and businesses. This ensures that your company comply with all legislation set out by The Data Protection Act, and that all your sensitive material is kept secure at all times. It is a fact that shredding companies help protect people from identity fraud.

Our service is simple, we dispatch our Shred-Packs direct to you as a one off or as required, and when the packs are full they are picked up by our personally and thoroughly vetted staff. The paperwork is then taken to shredding companies facility where it is destroyed.

Ensure your identity stays safe with our hassle free shredding service.
