Did you know that Action-Lights.com is one of the largest authorized dealers of a large variety of Surefire flashlights? You heard that right. Action-Lights.com carries a wide variety of Surefire products and accessories. In the early 1980s Surefire was fortunate enough to have gained its notoriety because their revolutionary weapon light design. Their incredible revolutionary design rocketed their weapon light's popularity and forever altered the way that law enforcement and military personnel perform their tactical operations. From there, a large assortment of heavy duty, powerful and compact illumination tools like weapon mounted lights, baton lights, shield lights and hand held flashlights.

Today Action-Lights.com will be showcasing the Surefire LX2 flashlight. This Surefire flashlight may be small in size, but it sure packs a lot of power. This ultra-high-performance LED is capable of producing 200 lumens of blinding white light, while also offering an additional setting at 15 lumens of low light. Using only two typical D-cell batteries, this flashlight can last up to 47 hours with one set of batteries. Housing a TIR lens, the LED's intense bright light is gathered and projected forward in a nice solid beam that stretches quite a distance while producing enough surrounding light to accommodate peripheral vision.

Surefire LX2 Specs:

- Nearly indestructible LED regulated to maximize output and runtime
- Two output levels - full power at 200 lumens, low power at 15 lumens for extended runtime
- Total Internal Reflection (TIR) lens used to create a tight beam of light with enough surrounding light for peripheral vision
- Extremely tough aerospace aluminum body, Mil-Spec hard-anodized for the ultimate in durability
- O-ring and gasket sealed; waterproof to one meter for up to 30 minutes
- Two-way clip permits light to be carried bezel up or down
- Two-stage tail cap switch - light press for momentary-on low power, press further for high powered light; twist for constant-on at either level
- Tailcap switch locks out to prevent activation during transport or storage
- Includes two high-energy 123A batteries with 10-year shelf life
- Adjustable lanyard included
- Length - 5.4 inches; Diameter - 1 inch
- Weight with batteries - 3.7 ounces
- All Surefire flashlights come with a warranty provided by Surefire
