Irish Number Plates and Replacement: a Welcoming Difference by [Julia Roger](#)

Article published on May 7th 2012 | [Business](#)

Irish number plates are considered the most commonly seen and popular private car registrations that are mostly observed on roads today. Unlike the DVLA plates, the Irish number plates are read with three letters that are followed by four digits. Besides, the plates serve as a cheap option that welcomes the advantage of using personalised plates for your car.

The welcoming difference made by Irish number plates

The first point to be noted about these plates is that they are dateless and can actually be assigned for any type of car, no matter what is its age. Those who want to hide the actual age of the car prefer these plates.

Remember, the more useful and neater are the plates, the best are they noticed and used for registration. This adds to the creative possibilities of these types of plates. The idea is to conceal the year of manufacturing is the right thing to do with these plates.

To ensure that the Irish number plates can be transferred, it can actually be transferred from one vehicle to other. Both the recipient and donor ought to sign the V317 application and form. This has to be done with relevant documents including MOT certificates and V5 logbooks.

When it comes to replacement number plates, there are few things that you ought to consider. Make sure that the plate is visible from time to time so that if the question of MOT comes forth then everything is in order. If there is a need of replacement plate, then search the Internet to know where to order for a plate.

Replacement of the number plates can be done with the use of sticky pads and screws. You will get them free of cost from the manufacturers. Besides car suppliers also supply car kits, which you get along.

Thus, with Irish number plates and replacement facilities, this is a welcoming difference.
