Organo gold coffee is the supreme coffee experience gotten with the presence of Ganoderma Lucidum. This plant has had medicinal powers discovered and used since the past 4000 years. Everything from the mushroom itself to its seeds has high health benefits. Our coffee has a rich flavour and smell that has the power to lift your senses. A freshly brewed cup of coffee in the morning will not only give you a great head start but also health benefits. The presence of Ganoderma Lucidum along with Ganoderma Spore Powder combined with Arabica beans makes for a delicious, healthy beverage.

Organo gold coffee- Why the hype?

This coffee deserves the hype. It contains rich Arabica flavour along with nutritional value containing Ganoderma Lucidum. The combination of these two ends up giving a unique blend which energizes you from the first sip. You don't have to worry about the taste of this mushroom as it in itself doesn't have any taste. So, the only taste you get is the smooth, delicious flavour of gourmet Arabic beans.

There is also the presence of Ganoderma Spore Powder in certain blends of our organo gold coffee. These are the seeds of the Ganoderma Lucidum plant. These seeds are 17 times stronger than the mushroom itself.

Organo gold coffee- The powers of Ganoderma Lucidum and Ganoderma Spore Powder:

Ganoderma Lucidum has several health powers. These are some of the main ones:

1. It increases immunity in the body. Studies have shown that consumption of Ganoderma Lucidum increases the count of T lymphocytes and decreases CD8 counts.
2. It also increases antioxidant levels.
3. It brings more energy into the body.
4. It promotes longevity.
5. It also promotes blood circulation and reduces high blood pressure.
6. This mushroom also has anti bacterial and anti viral powers.
7. It also known to calm your nerves.
8. It even improves sleep quality.

There are six types of Ganoderma Lucidum- black, red, green, purple, yellow and white. The red one is the most common one. Each colour has its own set of medicinal properties.

Ganoderma Spore Powder is gotten from the seed of Ganoderma Lucidum. It has 17 times more strength than the plant itself. It the most important part of the herb. It has the strongest composition of active components. It enables better and easier absorption of healthy nutrients.
