The children education programs are created to instill a sense of self-esteem in kids. Such program allows young kids to produce good intelligence from the things that happen in their lives later on. When sense of worth in a kid is built, they are able to create a fundamental and progressive influence inside their environment in future. A number of the main basics of childhood progress that the programs of child welfare in India gives attention to enclose building skills, mingling with other people, communication and understanding.

The exceptionally efficient and helpful child welfare as well as children education programs make an effort to accomplish the essential educational and welfare necessities of kids in the most comprehensive and specialized manner. Nevertheless, both government as well as private associations put forward useful School Advocacy Programs that are intended to offer essential education to poor and underprivileged kids, with the intention that they can accomplish their objectives.

The majority of the School Advocacy Value Education programs aspire to assure the fundamental education requirements of underprivileged children, who don't have the necessary funds for schooling. In contrast, some programs offer kids, mostly those from low socio-economic and earnings conditions, admission to fundamental education, food and above all healthcare. Above and beyond, from the complete financial support, these Children Educational Support programs also put forward infrastructure, support sponsorship, and ease lawful support for kids' wellbeing in disastrous areas. There are several organizations all over the world like India, US, Australia, England and other countries that offer Programs of various kinds

Save is child welfare NGO in India. Help Age's SAVE - Student Action for Value Education programme's major focus is to sensitize school going kids on ageing problems before time in life, so they take care of elderly with love and care and identify with their problems deeply.

The plan of it is to increase understanding of the 3 core morals of SAVE. Moreover, in affiliation with HelpAge, or on their own, they work to promote a variety of school age care program.

SAVE (Student Action for Value Education) programme is designed to:

- Instill morals of concern & value for the aged in school going kids.

- Prepare today's kids & youth for their adulthood.

- Create an age friendly world.
