Take control of an Easy Glider Pro, it takes gliding to dizzy new heights by [Angie Turner](#)

Article published on June 18th 2012 | [Business](#)

Fancy starting a new hobby that's fun and addictive flying model aircraft as an exciting new activity? Take control of an Easy Glider Pro it's a fun glider that'll provide you with many hours of pleasure. The latest Easy Glider Pro is the ideal aircraft for beginners and just like the Easy Star 2 you'll soon get to grips with the controls.

For those in the know the Easy Glider Pro is based on earlier versions of EasyGlider electric models but this glider is ideal for novice and more experienced pilots as well. Flyers find that an Easy Glider Pro has been updated and it can be used simply as a glider or once fitted with a power pack it can be used as an electric model.

Where to begin

If you want to enjoy a new model flying hobby the Easy Glider Pro is the perfect starting point. It's in stores as we speak so shop at a model enthusiast site that sells the latest Easy Star 2 glider. The fabulous flying characteristics of the Easy Glider Pro make it the number one choice for people who are just starting out in the model flying world.

If you want to enjoy a little slope based fun opt for a complete kit that comes with the Easy Glider Pro and everything you need to get started, all you have to do is attach the tail and you're good to go. The Easy Glider Pro is the no-nonsense approach to model gliding, once fitted with an electric pack you can launch from flat fields or take to the slopes and watch your model soar into the air.

Features you'll find on the Easy Glider Pro

It's an exciting moment when you unpack the Easy Glider Pro from its packaging. Kits come with everything you need to get you flying the Easy Glider Pro in the shortest possible time and that includes a host of plastic parts and components right down to the decals that you can apply.

Make a shrewd investment with the Easy Glider Pro and you'll find it benefits from a low sink rate, you can add ballast to expand the airspeed range and it's fitted with a landing aid to reduce the risk of bumpy landings.

Just spray the Easy Glider Pro in any colour that you like and start soaring from slopes or taking off from fields operating the various functions on the RC. Get to grips with the various features of this amazing glider and you might be tempted to buy an Easy Star 2 a little further down the line.
