The latest innovations India news channels have made by [Nidhigupta](#)

Article published on June 5th 2012 | [Business](#)

The past records very clearly show that India is a country where in anything can happen any time! The earthshaking and epoch-making terror attacks of 2011 are one such example. These kinds of occurrences have made it very crucial and important for Indian citizens to update themselves and be aware about the latest news India.

In India news channels have made a lot of advancements in terms of visuals, reports, surveys almost everything. This makes it more interesting for the viewers to catch up on the news and events. Citizens are generating a sense of responsibility towards their nation and are realizing the worth of their Right to Knowledge. They are keen on knowing the latest news related to India and want to educate and update themselves with the issues of the nation.

The latest news India TV channels show is hot off the press. It is the most latest, recent and breaking news India. Indian news channels have advanced up to such an extent that they not only show news updates but also entertain us with celebrity gossips, sports related news, beauty tips, health and wellness tips, etc.

However, sometimes India news channels and websites show even the minutest and the most insignificant events of the nation as breaking news India. They make a big issue and matter of such events by giving it undue importance. This is highly unacceptable annoying to the viewers.

There have been times when these news channels show the lives of a celebrity; their posh living which misleads the public especially children because they too feel like living a lavish and luxurious life like these film stars which their families can't afford. Also, these news channels need to realize that they should focus on issues of national importance like poverty, corruption, dowry, etc which will make the citizens aware of what their rights and duties are instead of showing baseless insignificant and unwanted issues.

No doubt TV India news channels have made a lot of progress throughout the years and have reached the masses of every corner of the nation, it should be taken note of that they don't misguide the public and lead them astray. People should be entertained but there should be a limit to it. The main aim of these news channels should be to create an awakening among the people and make them aware of the current events and happenings.
