Trendy Black Fashion and Hair Style by [James Blee](#)

Article published on June 6th 2012 | [Business](#)

In the fashion world of today, black fashion is in and so are the black models that had to struggled a great deal to get their place in the world of fashion and style. African American style is different from any other but is becoming every more popular on print and the fashion industry. People around the world have accepted black fashion so much so that you would not be able to discriminate between the black and general fashion. The same is applicable to the African American people who have adapted the style of the world though they maintain their distinct look and style in some way or the other.

When we talk about African American style, one of the things that come to mind is hairstyle. No matter if you have curly, wavy or straight hair you will be able to find a unique style that suits you. The community is quite creative with hair styling and they weave design of different types on their head with the hair. In recent years there has been an overwhelming change to go back to your roots. In fashion and in beauty this is one in the same. Long are the days where you have to spend tons of money on hours at the salon. Now natural is back. That is keeping your natural texture but with a polished look.
