So just what does Vantage VC Limited do?

Vantage VC Limited is a reputable manufacturer and supplier of van racking, animal transportation and vehicle accessories for commercial vehicles.

Our selection of products includes vehicle lining kits, van roof racks, storage solutions, Speedliner dog transportation, electrical accessories and so much more.

We have twelve years experience, and a reputation for providing a level of customer service that is second to none.

Our comprehensive selection of products is as innovative as they are functional. Once you come to Vantage VC Limited youâ€™re sure to find bespoke solutions for all of your van racking, and indeed commercial vehicle accessories at prices that wonâ€™t be matched by any other online or high street retailer.

Here at Vantage VC we have specifically-designed van racking for different commercial vehicles. If you have a fleet of Citroen Berlingo vans, and require a business to install van racking that will allow you to transport all of your goods with ease in a safe and secure environment, then the Berlingo First Three Shelf Racking Units are just for you.

These van racking units are fitted complete with rubber matting and fixing kit and a price of just one hundred and seventy nine pounds and ninety nine pence will surely provide you with a sound return on any investment.

If on the other hand you require more comprehensive van racking then the Combo Offside Three Shelf Racking Unit will surely cater to your demands. This van racking assembly comes equipped with eight plastic storage bins, rubber matting and a fixing kit which will surely provide you with more than adequate storage space.

With a retail cost of two hundred and seventy pounds and sixty seven pence, these durable racking units are a small price to pay for the substantial storage that they offer.
