Dress shirts have become one of the basic necessities of men, as they need shirts on daily basis for office or other routines. Dress shirts have dominated among men wardrobes. With so much use and everyday necessity, needs a dress shirt of high quality and great style. Buying off the rack readymade shirts gives man a common everyday personality and the desire to stand out from is not achieved. These days markets are flooded with common designs of readymade shirts that every one wears. Besides, in the world of today, time is considered money as everyone is too much busy in their lives that they do not want to waste their precious time in visiting shop after shop and never finding the perfect dress shirt.

Well, on the other hand mens custom dress shirts can magically transform the personality as it fits well on every wearer. Custom dress shirts are specially crafted for every individual, so that it fits perfectly on every body part of the individual. Custom dress shirts show the style, fashion, and authority of the ultimate finish. These shirts can not only provide you with superior comfort but also render style to your personality. Custom dress shirts give men the opportunity to awake their inner designer and create the style they have ever desired. With mens dress shirts sale, people can save their precious time as they can design and order a custom dress shirt of your desire in matter of minutes and the shirt is delivered in some day's time.

There are many plus points of custom mens dress shirts that men can get. As in readymade shirts, many drawbacks make men look pathetic. Let us discuss some of the benefits of custom dress shirts:

Single Needle Stitching

Buying a excellent fabric does not guarantee the high quality of dress shirt. To ensure excellent quality of dress shirt, you have to make sure that every process of the dress shirt developing is taken through the proper way with experienced and skilled tailors on state of the art devices. To ensure seamless and finest stitching, Fit Custom Shirts use single needle stitching.

The single needle stitching is quite challenging and more time consuming but it provides each seam with twice the durability of a conventional seam. In our single needle stitching, we normally use 17 to 20 stitching per inches for additional strength; this creates the complete stitching procedure three times more stronger and durable. With this entire attempt, we obtain a dress shirt with flattered seam that gives more relaxation to the individual.

Shirts stitched by readymade industry have no single needle process. They stitch shirts with low quality of thread that often break while sewing or some times the needle break down. Besides their sewing and other machines are also not of high quality the decreases the fineness of shirt. A dress shirt stitched with single needle looks strikingly nice and sophisticated while giving wearer the rare elegant look. Besides, the single needle stitched dress shirt also have strong seam that are far more durable than conventional seams.

The Detailed Approach

A custom mens dress shirt is created with a lot of effort. The makers of custom shirts have teams of highly skilled tailors who have years of experience in making shirts of every variety. These tailors meticulously perform every step of making a custom dress shirt right from drafting patterns and cutting to sewing and stitching. It is their detailed approach that contributes highly to the making of

stylish and comfortable custom dress shirts.

The Features of a Handmade Shirt

Mens custom dress shirts come with many attractive features because of which most men prefer to wear them. Firstly, the custom shirts are constructed on a single needle machine that facilitates cleaner, narrower and stronger seams. Secondly, the buttons are lock stitched so that they do not fall off easily. It is so annoying and shameful, if the shirt button suddenly comes out when you are in a meeting or at an office party. Moreover, the custom dress shirts are made from natural shells giving them a lustrous and shiny look. Thirdly, the bottom hems are double stitched making the custom dress shirts stronger and firmer. Fourthly, some of the dress shirts for men have structured collars that can be removed for washing separately.
