Clothing tips for petite women by [Gemma](#)

Article published on February 17th 2012 | [Clothing](#)

Are you a petite woman dreaming to look beautiful? There are special clothes available which can elongate the body and minimize the volume. Few tricks have to be followed to cover up the faults of petite figure and here you will find few of them.

Main aim of people with petite body structure is to elongate the body. Common mistake done by them is wearing jackets or using belts in the wrong places. Do not wear belts on top of skirts or pants and it is also good to avoid belts if you wear different colored blouses. It shows as if the body is cut into two parts and make you look shorter.

Never wear clothes which has extra fabric around the waist, the area already looks plump and adding more volume to this area can make a petite person short and fat. Generally there is a false misconception among people that long skirts can make one look tall but it can make you look tall only if they are below the ankle level and straight. Avoid baggy and very long skirts as it will not make you look attractive. There is special clothing for petite which makes them look tall and attractive than the regular dress.

One of the best tricks to elongate your body is to wear clothes with vertical lines but do not wear dresses which have lines like Zebra. Pair of jeans trousers with vertical lines can be paired with a slim fit shirt which can give the illusion of tall person. Avoid skirts or jeans trousers which have multiple lines or mixed up line patterns.

If you are flat and plump then it is good to avoid oversized T-Shirts and dresses, it does not hide your extra pounds rather it makes you look fat. On the other hand clothes which are too tight are risky to wear and affect your overall appearance. Never wear tops or shirts that provide open view of your tummy, needless to say it makes you look unattractive.

Choosing petite dresses with same clothing will not work. For instance, if you are wearing a black T-Shirt then choose trouser of the same color which can make you look tall. But you can wear accessories of different colors; shoes can be of different color which can give maximum effect to your costume.

If you are working women then you can easily find women's™s Petite Work Clothes at online shop. These dresses are specially designed for working women to make them look taller. Cotton blouse and various other type of petite dresses are available for women.
