How to attain a professional and polished corporate look by [Anand](#)

Article published on July 3rd 2012 | [Clothing](#)

When it comes to corporate dressing it is always better to keep it simple and sophisticated. Confidence always comes up from professional abilities; business dressings are yet another imperative thing that makes you fall in the right category.

When it comes to corporate offices always ask your supervisor what the general dress code is all about. If your corporate office has business dress code, then make sure that you stick on by wearing appropriate business attires. Suits are the best choice for men for that professional image.

Mens Business Suit is a more formal approach to professional dress and this attire will prop up and increase your professional image if you follow the guidelines and tips below.

- \* Color coordination
- \* Fabric
- \* Insist on quality and value
- \* Correct fit
- \* Complete your look

It always goes this way, initially concentrate on the color, then fabric type, exact fit, insist on quality and finally the matching accessories.

When it comes to choosing colors, be mindful and match it with the right colors. Dress shirt, suit and tie color should blend well. In case of contrasting colors, do a comprehensive research and come out with the best one. As far as suits are concerned there are some basic colors and it includes

- \* Black
- \* Navy blue
- \* Charcoal gray
- \* Brown suit

Start off with these basic colors for a consistent and pulled together look. Contrasting means select warm business colors for a classic effect.

Next is the fabric, comfortability matters a lot so stay away from velvet, vinyl, spandex, shiny and slinky materials. Select wrinkle-free fabrics and they are the one that are highly recommended. To add that comfortability quotient, it is good to purchase fabrics that have small percentage of Lycra for the reason that it adds comfort and resists creases. Fabrics like polyester, wool (suits), cotton shirts are highly recommended.

Cut is also an important factor, and it is best to prefer any of the below cuts to attain that formal corporate look.

\* American cut

\* Italian cut

\* British cut

Insist on quality and value, it is always the look and comfortability matters so make sure that you take time and decide on the best finish suit.

Exact fit is also an important criterion, make sure that it fits you well and at the same time it shouldnâ€™t be very tight as well.

Finally, pull off that complete look by pairing with the right accessories like shoes, ties etc. in general a black shoe goes well with all types of suits. Keep them well-shined. Tie should be coordinated with suit and shirt.

General guidelines:

- \* Build up a look that is successful, polished and professional. The main focus should be on you, do not concentrate on the clothes you are going to wear.
- \* Wear clean and pressed attires that fit you properly.
- \* Check for missing buttons, hanging threads and remove it.
- \* Well-groomed and clean shave is always a must.
