Bug of MapleStory Mesoslead Led Countless Players to Reach Quickly Top Level by [Moubinwoo](#)

Article published on July 25th 2012 | [Computer](#)

Last weekend, the hanbok MapleStory Mesoslead emerged BUG named Luminous. Luminous is a new career in the MapleStory Mesoslead updated in July 12. It is mainly used to mixture light and dark of powerful magic, and the player can choose light or dark to experience a different story and role characteristics.

With the emergence of new career full-class BUG, a lot of players use this bug to upgrade Luminous role level even rose to 200. This makes the full level congratulate information to fill the entire chat window, then a lot of players know the existence of the facts of the BUG.

However, the hanbok MapleStory Mesoslead operating company NEXON mastered the relevant BUG in the afternoon of July 15, and emergency maintenance made game return to be normal. Meanwhile, the players using BUG have also been varying degrees of punishment.
