Free mode of operation of online games allow many players can play the games with low cost directly. Subject to some restrictions in the process of the play, it still can not stop the players' so love such to the works. Recently, we have an inventory of the ten free model works which are more successful in the current online market works.

## Maplestory

I believe a lot of players still remember a horizontal version of online game Maplestory which changed people's view to the traditional 2D gaming. Even now still a lot of players play it.

## DC Comics hero OL

Since the DC Comics hero OL transformed to free online games, the SOE president John Smedley constantly updated Twitter. In recently updated text, he said the surge of potential micro-transaction number of players in the game within a week, higher by nearly 1000% before free.

## Rocky Heroes

Rocky Heroes is a high simulation action games, and it is the online game Rocky's sequel products. Due to the excellent high-quality physical movement and fine game screen setting, it becomes one of the few excellent action class online games in recent years, and it agented by the Century Natural.

## RuneScape

Players can be described RuneScape is a love-hate relationship, for this has been to focus on the picture effect, so the game also has been introduced the patch updates. At present, this game has been upgraded to high-definition version.

## Dungeons & Dragons OL

In fact, long time ago, players need to in charge for this game. But now the producers have launched a new free version, which is very popular in the players! That when the game first test of the players so far are still in this for fun.

## AIKA

This was a next-generation multiplayer RPG online games developed after a study of Japan and South Korea and other Asia players. This game holds a huge task, the battle of the great kingdom of war and be able to accompany around the players, in the game as player's daughter's guardian spirit - Fran.

## AQ World

AQ World, a page game which based on the best browser for the production, is only the page works in this inventory.

This game listed in the U.S. and Europe, but a Japanese-style screen style were used, so that the player these areas will have the illusion of animation play. A large proportion of the role and the set

of real-time combat make so many players feel that this is not a page tour.

## Magic Festival

The Magic Festival is a magic theme epic created by Taiwan professional game producer. This game as a set of user-friendly, aesthetic visual effects, original background story, the new system and a high degree of liberalization and so on, to get the high praise of countless players!

## Lord of the Rings OL

This is the the most popular game in free online games, and many players regarded it as their own leisure work one. The national costume have agents, but so far, it did not meet with the players for various reasons.

## Guild Wars

Guild Wars 2 able to obtain recognition of the players currently, is largely due to the Guild Wars 1 for its high popularity. The monthly fee does not exist in any form, until the birth of Guild Wars 2, the situation has changed.
