Youtube is a trend setting site and extremely helpful for every internet user. For me, the most important and exciting part of youtube is its feature that allows every one to add videos ranging from personal videos, songs, movies to highly complicated, technical and sophisticated subjects. Thus whatever you are looking for, youtube will never disappoint you and you can get top quality stuff for free from youtube.

Rather than watching online I prefer to download the videos on my mac computer and watch them later on without any inconvenience caused by the speed of my internet connection. From some time, I was just searching for some handy youtube downloader for my computer. There are hundreds of different softwares available online that makes it rather confusing to choose a good one. But I decided to make a list of requirements and features which I would prefer to have when choosing a downloader for mac.

â€¢ The first thing came to my mind is that it must be user friendly so that I can use it easily and do not have to spend hours to understand its features.

Then downloading speed was the next thing that flashed into my mind and in fact, for most of you it can be the primary factor to choose or reject any free youtube downloader mac computer. So, the software I use must provide enough downloading speed to save me from frustration.

â€¢ The best youtube downloader must allow multiple downloads simultaneously and should show the progress separately. This feature really makes it easy to manage and saves lots of time.

Other than these key features, if something extra is provided without any compromise on these most critical points, I think that would be highly appreciated from all of you.

With my key points in mind, I searched the web and finally came across the wondershare youtube downloader for mac. The best, they did not charge me a penny. It has exciting features and even made me more excited when I just looked that it is free to download. Any thing in free always sounds amazing but if it is also of great quality then it becomes more exciting. And same is the case with wondershare video converter for mac.

Free youtube downloader for mac is user friendly providing you the extreme flexibility with the usage. You can use many different methods to download videos using this software. Whether click on â€˜download videoâ€™™ button or enter the url to download video or even use traditional method of â€˜drag and dropâ€™™ to free youtube downloader.

Another exciting feature of this software is its ability to allow video sharing on facebook and twitter. It also has built in player to play videos in high quality. And the most important thing is speed, it really provides Free youtube downloader mac high speed download.

Imagine the convenience of downloading videos from youtube with just one click and then you can play or post them on facebook or twitter. You will be enjoying lots of benefits by installing just a single program.
