Intricate and delicately fashioned Humidor™s and Wine Bottle Stopper by CarolinaWoodDesigns by [Riley Poole](#)

Article published on February 8th 2012 | [Customer Service](#)

Carolina Wood Designs stands out from other wood working companies for the fact that everything is handcrafted and carefully designed, piece by piece, client by client, to become something stunning, sturdy, polished, and delight-inciting.

Say, for instance, you have a night of wine and cocktails, cigar-smoking, and warm conversation. You could pull out your regular, unpolished humidor and your standard wine bottles with cork stoppers. This wouldn't be so bad. But imagine having a hand-crafted, beautifully shaped wooden humidor from which to offer your fine cigars to friends. Imagine an intricate and delicately fashioned wooden wine bottle stopper that you can make any already-opened wine bottle seem just as classy as a new one. What Carolina Wood Designs specializes in is subtlety. The touch of human hands and personalized concepts is what makes a Carolina Wood Design humidor or simple wine bottle stopper something memorable and remarkable to your guests.

Carolina Wood Designs invites you to call or email them with your ideas for humidors, wine bottle stoppers, furniture, TV stands, wine racks, cutting boards, custom-painted shutters and entryways among other crafts and wood works. You can come to the website to see pictures of past projects that have already been sold, to get your wooden gears turning, and to come up with your own custom humidor, or to give a gift of a custom wine bottle stopper. You can go all out and purchase those bigger investment items as well, like bed frames, kitchen tables, and new wooden cabinets.

Those smaller and more common items like humidors and wine bottle stoppers can help you appreciate the little things in life, and to take pride in hosting parties or get-togethers. You will be able to display the fine polish of the wood, and you will be sure to remember your friends who gave you that wine bottle stopper with fondness, as you use it to savor your fine wine for another time. If you go to the Carolina Wood Designs store, you may find other small and affordable wood-worked gifts for any occasion, or to treat yourself. Perhaps you might buy your husband or father his own wooden humidor, or you might buy your wife or mother a gleaming wine rack with a fresh and flavorful wine. Carolina Wood Designs is about classiness and customization. It is about taking something ordinary and turning it into a piece of art.
