Article published on June 27th 2012 | [Dating](#)

If you are living in the city of Boston, you should strongly consider online dating. Boston is a terrific city for singles; in fact, out of all the major cities in America, Boston is said to have the best population of singles. What does that mean? According to studies, Boston singles are open to more fun activities than singles in most cities.

Having said that, it is also true that it can be hard to meet someone in Boston, since all the great singles are so busy! Between working long hours to afford Boston properties to socializing with friends, Boston singles have little time to meet fellow singles! Because of this, many singles have decided to explore online dating in Boston. Boston is home to some excellent dating sites, in fact, the city has over one hundred dating sites to choose from! If you are going to date online, however, you need to make sure you don't waste time on the wrong dating site. There are many sites that cater to specific interests and hobbies that may not interest you, and you want to weed those out. The best way to do this is to visit one of the many online dating review sites. Many of these sites thoroughly explain the target market of each dating site, and makes it easy for you to sift through the many dating sites Boston offers and choose the one for you.

Luckily, there are a bevy of new dating sites that take a unique approach to online dating. Rather than rely on algorithms and detailed profiles, these new sites allow members to simply write and meet others. The premise of many of these sites is that "less is more"; that is, that it is often better to share less on a dating site, and wait to meet in person before sharing more details.

If you are single and dating in the great city of Boston, make sure to try online dating and do it right. Peruse dating review sites, and ask your friends and colleagues which sites they recommend. The wonderful city of Boston awaits you!
