Article published on February 18th 2012 | [Destinations](#)

Surrounded by the sea and many big and small islands, this small island country has plenty of opportunities for the tourists who land here in big number each year for their tour to Singapore. Here are top 10 attractions of Singapore which makes Singapore a perfect holiday destination for every type of person in the world.

Night Safari: As par with the African Safari Ride, nature and wildlife lovers would really enjoy this night safari. Here you will find more than thousands of animals which have been brought here from Asia, Americas, Europe, Africa and Australia to give visitors the chance to see the wildlife of all the countries. Here you can even find the endangered species which are on the path of extinction but here they have been conserved and are doing well.

Sentosa Island: This place is must visit for all, here you can find finishing touch of nature as there are many exotic beaches. Imbiah Lookout, Siloso Point, Resorts World Sentosa are other main attractions of the Sentosa Island. When you reach this spot you will find there is much to explore which you would never forget in your life time.

Underwater World: This is the main key attraction of Sentosa Island and is the biggest oceanarium of its kind in Asia. Visiting this place would fill you with utmost adventure; here you can see thousands of fishes and other aquatic life species which would definitely enthrall you. When you will come out of this you would have enough information and knowledge about the marine life and its living beings.

National Orchid Garden: This garden spreading over 3 hectares has more than 50000 orchids. With the these thousands of colourful orchids in every part make this garden wonderful heaven like place which you would not like to leave.

Jurong Bird Park: This place is also a wonderful place to visit where you can find thousands of birds of hundreds of unique exotic and beautiful birds from all over the world. Nearly one million tourists come to visit this bird park each year.

Singapore Butterfly & Insect Kingdom: Located in Sentosa Island this place gives you the insight into the life of the hundreds of butterflies of different species, and hundreds of unique insects like millipedes, scorpions, beetle, and many other small and big insects. If you visit this place then you would have lots of wonderful natural experience and lots of information about the butterflies and insects habitat and their lifestyle, which you can not experience anywhere else.

Singapore Zoo: Do not miss this as this is the very famous tourist spot of Singapore in many ways. Although zoo are there in every country but this zoo is of a special kind. Here you can find thousands of animals of hundreds of species from all over the world. You can see here Giant Tortoise, Komodo Dragon, and even Polar Bear are part of this zoo.

Bukit Timah Nature Reserve: Is a part of Singapore Botanic Gardens where you can experience the wonderful natural beauty of the earth where tropical rainforest vegetation and its inhabitant are waiting for you to impress you with their utmost beauty.

Labrador National Park: It is located at the southern part of the Singapore and is spread over around 16 hectares. It has an excellent picturesque view of the sea if you look from the sea cliff that traverse in the sea in its western part and gives you a wonderful experience. Its forest and ridge

provides a perfect view of the vegetation coupled with panoramic view of the sea.

Fort Canning Park: It is positioned at junction of Canning rise and Fort Canning Road in the central Singapore. Today Fort Canning offers visitors a wide range of activities to engage in while exploring the lush greenery and expansive lawns. The "Keramat Iskandar Syah" sacred place is also situated here that is a burial ground of a venerated leader. Another attraction of this park is the Spice garden, a botanical garden that was established during the time of Sir Stamford Raffles.

Thus when you come on a tour to Singapore make sure you do not miss such nice wonderful natural places of Singapore so that you can have a rich experience mixed with the natural beauty, geographic location benefit of Singapore.
