Ballroom dancing is for everyone. It doesn't matter if your grandma moves better than you; as long as you get to jiggle along the beat, you're fine. Ballroom dancing is a form of intense aerobic exercise, and it usually involves a partner to dance with. People from all walks of life perform this kind of dancing to release stress and have fun.

It is said that the earliest ballroom dance began during the renaissance period, just before the end of 16th century. The term "ballroom dancing" originated from the Latin word "ballare," which means dance. As of today, there are more than 20 dancing styles associated with ballroom dancing. Some of the most popular styles include the salsa, mambo, and waltz. Not only is ballroom dancing a good way to have fun, it can also provide you with a few healthy benefits. Here are just some of the good things you can get from dancing.

You get a Healthy Body
