Mobile phones are a device that very few people can live without. Several mobile service providers offer download connecting tones services for customers. With such a service, customers can browse for music and make music purchases to enable their connecting tone to be personalized.

For mobile phone subscribers, both prepaid and postpaid subscribers can subscribe to connecting tones services. Connecting tones provide various benefits to the customers as different connecting tones can be assigned to a specific caller or a group of callers.

Subscribers can even fix the date and time so that they can hear in that particular moment when they call.

Connecting tones can range from select hit songs, romantic songs, funny scripts, old songs, classic songs and even celebrity voice as connecting tones.

The traditional ring tone can be replaced by your chosen connecting tone. Should you be engaged and not be able to answer your phone, callers can enjoy listening to a hit song if that was your tone of choice.

At the moment, connecting tones websites are only compatible with the Internet Explorer browser. Should other browsers be used, one might encounter downloading problems. Downloading connecting tones are best to be done on Internet Explorer.

Music remains a mainstream pleasure enjoyed by the majority. With the internet, music downloads has made music more accessible by the masses.
