Winter shopping from wholesale clothing counters by [AngeloEverton](#)

Article published on January 29th 2012 | [Fashion](#)

Wholesale clothes are out at large this season, what with people pouring in for their Christmas shopping. For fashionistas who are looking forward to refurbish their winter collection, the big year-end clearance sale is certainly not the place suiting the epicurean taste. Instead, purchasing wholesale clothing is a much more prudent way of saving some cash while picking up the choicest and most up-dated fashion articles in the market. If you are on a look-out for wholesale t-shirts the you can expect to get the most upgraded stock and the most fashionable collections to come by.

Knitted hooded t-shirts are in vogue this winter for boys. Ideal for all occasions, teenagers fit best in these t-shirts as they can be used as jogging suits or simply a warm wear in the rosy winter days. Made of Merino or Cashmere wool, the items are great to keep one warm even when heavy sweaters are not donned. Sports sweaters for men are some of the most sold items among wholesale clothing. Worn over sports jersey or kits, these sweaters are knitted with high-quality wool that makes the shirts extremely light, yet generously warm. Considering the body heat generated during sports activities, the sports wholesale t-shirts basically work to lock the temperature inside so that the body remains heated all throughout.

Available in a variety of designs and sizes, you can also obtain solid or a combination of colors in the sweaters to suit the varying tastes of the buyers. Athletic and non-athletic women can try out the raglan-sleeve, cotton cadet jackets. Cover-stitched with rib side armholes and insets, the cadet jackets are very soft-shaped and perfect for feminine fit. You can buy wholesale t-shirts with slash pockets as they are quite fashionable as comfortable to keep hands warm deep inside them. You can find a range of colors in wholesale clothing that include young and subtle shades like black, indigo, brown, white, eggplant, raspberry, etc.

The light-weight jackets are also great for ladies during the winter when the shoulder already bears the weight of several layers of thick clothing. Stitched with extra-long hand-warmer cuff pairs, the clothes have a tail hem to cover the extra back area. This wholesale clothing has the added capability of drawing moisture and perspiration from the skin. Some of them come with anti-microbial treatment that prevents breeding of bacteria and thus prevents body odor. The added stretch-ability and flexibility of these wholesale t-shirts provide utmost comfort to the wearers.

You can buy the jackets in single dark and light hues of slate, black, heather and grey. For an off-beat look, you can buy the jackets that come with contrast panels set along the raglan sleeves and frontal zipper. Front pockets are available in both zipped and open fashion. You can buy a pair of skin-tight leggings from the wholesale clothing section to warm up your legs while flaunting their toned shape.
