The Right Services for Asset Protection by [Bruce L. Rinda](#)

Article published on May 23rd 2012 | [Finance](#)

Currency is a medium of exchange and paper currency is a common form of legal tender in many countries. There are many forms of currencies such as complementary currency, local currency, auxiliary currency and private currency. Suissechange.com is a competitive foreign exchange and payment service platform which provides financial service for many. They have different services like wire transfer, regular payment and international transfers. They transfer money between any of the currencies offered at highly competitive prices. International currency account service is available in most major and minor currencies. This has the special advantage to send and receive international wire transfers in any of the currencies and is suitable for international individuals or companies.

With a single account number one can open a multi currency account and it is possible to hold balances in various different currencies. It has numerous advantages such as we can keep everything on one convenient screen. One can wire money in and out different countries, without the need for currency conversions. This type of account is ideal for the person who frequently sends and receives money internationally. Banks normally permit you to go overdrawn in one particular currency and can have credit cards and check linked to our main multi currency account. These accounts avoid currency risks and make profit with fluctuations. One of the major advantages is its account privacy. Now it is possible to open this account through email, but if one can travel to meet the bank and open the account, that will be the best.

Customerâ€™s can hold their accounts in US dollar, Euro, Pound Sterling, Australian dollar, New Zealand dollar, Japanese Yen, Canadian dollar, Singapore dollar, Swiss franc and Hong Kong dollar. International bank transfers are inexpensive and fast. In foreign exchange services commissions starts from 0.50 % and they conduct spot basis business. Foreign exchange market is a form of exchange for the trading of international currencies. Currency conversion is possible through foreign exchange market and in this method a person can purchase a quantity of one currency by paying a quantity of another currency.

It has unique features like low margins of relative profit compared with other markets of fixed income and the use of leverage to enhance profit etc. Geographical dispersion is another feature of it. Limit order is another service and through this customers get the advantage of exchange rate fluctuations. Business account service is open for internationally operated business firms. Pay roll and other day-to-day transactions are easily carried out through this service. Privately held deposit agencies are not dependent on any government deposit agencies.

Wealth creation and asset protection is important for each and every person. Here is the best way to protect our money, which is secure in international environment and nobody will interfere in it negatively.
