The funds availed as loan can be used for any purpose be it to run your house, pay fees, get a plastic surgery done or get a new car.

What are unsecured loans? Unsecured loans are those loans for which a loan seeker does not have to place any valuable asset such as his house or a vehicle as a security against the loan. This is done in case of secured loan by the lender to safeguard his interest. In case the borrower defaults, then the asset placed as collateral will be taken over by the lender. This is legally approved. Individuals who don't want to take a risk of losing their expensive asset prefer to take unsecured loan even though the interest rate charged is higher than secured loan.
