Skinny Coffee- the revolutionary drink of the world by [Mike](#)

Article published on December 13th 2011 | [Food](#)

Boresha is a health and wellness company that launches Bskinny Coffee is the only zero-calorie beverage in the world. Our scientific group thought of a healthier way to produce coffee, which does not have a harmful reaction in the body. Moreover Skinny Coffee is healthy, organic and burns fat in a regular manner without doing any hard exercises. It is proven that by drinking Skinny Coffee you can burn the fat 800% faster than doing jog for 2 miles. It has low glycemic index. It was named as the breakthrough product of the year at the time of its launching by one of the leading magazine. Human Sports Performance & Glycemic Research Institute certifies Boresha Skinny Coffee.

Bskinny Coffee does not taste bitter. In fact it tastes very good and gives the customers energy to do more work and combat pressure. It is thermogenic, contains buffered caffeine and all the ingredients in a balanced proportion so it does not affect your stomach. You need not worry for its quality as Boresha Coffee is licensed by 100% Organic Fair Trade AA Arabica Coffee. Fair Trade Certified label gives assurance that the coffee was grown in proper way and the farmers have received reasonable value for the time, energy, efforts, and intense work that were invested by them during picking these special beans which are grown under the shade and kept away from direct sunlight and they are eco-friendly. This ensures an economically and generally sustainable intention of the producers. If you take the ten-day challenge provided by us, we guarantee the customers that they will not be disheartened. Skinny Coffee can't be imitated because of its patent, its proprietary and manufacturing procedure and moreover the formula of making such coffee is impossible to overturned. Boresha Coffee is rightly placed at the explosive front position of three international mega-trend industries for the first time in history. It provides persons with an unequalled selling model that combines the second most highly-traded product Bskinny Coffee on earth that serves worldwide over 1 billion cups every day. Boresha's™ infrared roasting skill that is also known as "State-of-the-Art" is a unique method which helps the beans to roast gently and uniformly in small batches to bring out the most wanted taste and aroma, and promise equally controlled flavor.

This coffee is made only from pure, 100% organic, fair traded AA Arabica beans, which are picked at their main time by from the original African soil that assures the customers of receiving the best crop for crushing. Our beans are cultivated in the high-class soils of small farms sited in the fertile, high mountain areas and wet lake locality of Africa. The beans are selected from this area because they have strong floral aromas and have hints of berries, citrus fruits and chocolate. It is naturally grown and any man-made pesticides, fertilizers, or other chemical products are totally banned. Our carefully selected premium beans are roasted in a temperature-controlled condition in an extraordinary roasting production site in California to please the diversified group of people.
