In-game Gold Now Available with Koala Credits. by [Ida C. Shore](#)

Article published on March 7th 2012 | [Games](#)

Aiming to reach new heights, BioWare and LucasArts joint project Star Wars: The Old Republic (SWTOR) has amassed devout followers whether they be new or old comers. Subscription has risen to the millions with no hint of slowing down. On the surface, The Old Republic seems very similar to other MMORPG game on the market. But what sets them apart from the others is the way they use the storylines and dialogue to draw the gamers into the story. With 8 character classes available, you'll be able to choose between two warring factions of the light and dark side of the Force. Each class has a unique story and your adventure will be influenced on the moral choices that you make throughout the game.

One of the important factors for gaining rank in this game is to ensure you have the proper amount of Star Wars: The Old Republic credits in hand. Fortunately, the game provides many options in earning money. Accepting quests is the most common method of receiving credits. Depending on the difficulty, your pay could either buy you that special item or just be considered as loose change. Trading for merchandise is also beneficial when you're running low on budget as well as crafting and crew skills. Unfortunately, the downside to earning money within the game are the hours required to do it. Instead of spending your time exploring, you could be wasting hours of game play repeating the same quest over and over again. Plus, looking for that perfect trading post to unload your gear could be time consuming as you fly around from planet to planet.

With such competition, gamers are always looking for ways to surpass each other. By purchasing in-game gold online, you could easily eliminate all those wasted hours of boring work and start off the game with the confidence of your knowledge of a full account. Koala Credits not only provides information on power leveling, but also sell SWTOR credits to anyone willing to boost up their chances. Their years of experience have enabled them to effectively find the most profitable resources as well as gaining a reliable reputation amongst online in-game gold vendors. With enough credits in hand, you could be sure to purchase anything to your heart's content. Upgrade your equipment to its latest technology and be able to beat your opponents in battle. Buying SWTOR credits with Koala Credits at <http://www.koalacredits.com/star-wars-the-old-republic/swtor-credits> will assure you a speedy pace up the ranking ladder.
