Frag Labs Introduces Pulse Series Gaming Desktops! by [April Andy](#)

Article published on April 24th 2012 | [Hardware](#)

The team at Frag Labs are excited to finally release our new series of gaming desktops the Pulse Series featuring 2nd Generation Intel Core CPUs, nVidia 5XX Series graphics and Corsair Vengeance RAM. Ranging from just \$1299 the Pulse Series delivers performance and value across the whole range!

Featuring cutting edge 2nd Generation Intel Core Processor technology with Intel's Turbo-Boost Technology and 4 cores which means you'll be able to handle any multi-tasking requirement and enjoy the latest games with no limits. Unlock the power of SATA 6 Gb/s and USB 3.0 Technology with support included in all Pulse Series Gaming PCs. Break free of bottlenecks and ensure a futureproof setup with theoretical transfer speeds of up to 500MB/s on SATA 6 Gb/s and 400MB/s over USB 3.0 specifications.

The latest games demand the most powerful graphics cards to deliver the best frame rates and the sharpest, clearest visuals ever seen. nVidia's GeForce graphics cards utilize the latest DirectX 10 and DirectX 11 Technologies including Tessellation, Multi-Core Rendering and Compute Shaders as well as offering the most realistic in-game physics with full PhysX support. These cutting edge graphics cards also offer full support for nVidia's Stereoscopic 3D which allows full 3D gaming across 3 Joined Displays for the ultimate widescreen gaming experience.

Frag Labs are pleased to work with U-Nited Warranties to be able to offer a 24 Month On-Site Hardware Warranty to most areas with our entire Pulse Gaming PC Range to ensure you are never alone. No Return-To-Base Expenses and quick turn around means you are back up and winning in no time. Also enjoy no shipping costs on the entire Pulse Gaming PC Range Australia Wide.
