Laser Jet printers by [Wenddymadden](#)

Article published on December 7th 2011 | [Hardware](#)

A Laser Jet printer saves on money and time at the crucial time of recession. The Laser jet printers are popular for their features like the cost-effectiveness and for developing very large volume of printing. With the quantity of prints they produce they also give out high quality of prints and graphics on a plain paper within seconds. And more important is the fact that they occupy less room and have light weight.

This monochrome compact printer comes with a capacity of about 14 A-4 pages in a minute with a printout of the first page in about 9 seconds or less. The HP Laser Jet P 1007 comes with a resolution of 600x 600 dpi. The input capacity of this LaserJet is around 150 sheets and has a 2MB memory. It also comes with a USB port.

Another one of the HP laser Jet is the P 1008, which is a compact monochrome printer and with a capacity of 16 A-4 pages a minute and this too produces the first page in 9 seconds. The resolution here too is 600 X 600 dpi. It has an input capacity of 150 sheets and has an 8 MB memory. It also has a 10-sheet multipurpose tray along with USB port. The laser jet printer from Samsung ML 1640 produces more. With the implanted configuration it gives up to 30% of toner without compromising on the quality printing. The cartridges will be changed less frequently and the option of printing saves paper by printing 2-up, 4-up to a 16-up on a page.

The Canon L BP 2900 is a monochrome printer with a capacity of 12 A-4 pages a minute and has a resolution of 600 x 600 dpi with capacity to print 2000 paper out of a cartridge. It has a capacity to hold 150 sheets of legal size. The printer has a Parallel and the USB port. This laser Jet printer is small in size and is light in weight too. With a U-shaped path you are ensured with a jam free operation. The HP laser Jet P 1505, is also a monochrome printer with a 24 A-4 print capacity in a minute and has a resolution of 600 x 600 dpi with 8,000 pages a month. The printer has an input of 260 sheets and the output of 150 sheets. It has a 2 MB memory and is compatible with Windows 95/98.NT 4.0/Me/2000/XP and with Macintosh operating systems.
