If you are on the lookout for an excellent anti aging cream containing effective hydrating agents like Hyaluronic acid, you must definitely try hydroxatone. This anti wrinkle cream actually helps reduce look of fine lines on the forehead and around the eyes, thereby making you appear years younger. In fact, the powerful formulation of hydroxatone reduces the appearance of even deep wrinkles on the forehead and improves your skin tone and radiance.

An Effective Anti Aging Formulation

Hydroxatone features multiple ingredients that are unparalleled in improving skin hydration, skin smoothening and ability to reduce depth of wrinkles. In other words, hydroxatone is clinically proven to reduce look of wrinkles and act like a complete skin care system that increases skin hydration, improves skin tone and enhances overall radiance.

Now here is a closer look at the exceptional ingredients in hydroxatone.

• Argireline: This anti aging peptide helps smoothen the skin by reducing the depth of wrinkles. Argireline provides amazingly fast and visible results in removing the appearance of surface wrinkles.

• Matrixyl 3000: This component smoothen skin by reducing the appearance of deep wrinkles by up to 44 percent. It also helps improve your skin tone and complexion.

• Hyaluronic acid: If the skin is not properly hydrated, it can cause dryness and increased vulnerability to developing wrinkles. Hyaluronic acid is endowed with an excellent ability to retain moisture more effectively than most other substances sourced from nature. Since Hyaluronic acid also decreases the appearance of facial wrinkles, the skin will be softer and smoother.

• SPF: Hydroxatone contains SPF 15 that protects your skin from the harmful rays of the sun. It primarily provides protection from UVA and UVB rays that will go a long way in preventing new wrinkles while the rest of the ingredients work to erase the appearance of existing wrinkles.

Use It Right for Best Results

From the reviews of hydroxatone, it is clear that this unique product provides the benefits of cleaning, toning and moisturizing. This all-inclusive product is in fact more than enough to keep your skin soft, supple and radiant. Experts recommend using the cream twice a day for best results. Use it in the morning before applying your makeup. At night, cleanse your face, apply hydroxatone and leave it on to allow the cream to work its magic while you sleep.

In clinical trials, 100 percent of users agree that hydroxatone improves the overall appearance of skin. The combined presence of effective ingredients like Hyaluronic acid, Argireline and Matrixyl 3000 in hydroxatone works to give a healthy glow and radiance to your skin.
