Laser hair removal Belfast for long lasting results

With laser hair removal Belfast becoming the most popular and favourite mode of hair removal, waxing or creaming techniques are no longer the choice options for fashion conscious women. At last, painless and fast hair removal happens with laser hair removal and the icing is that the effects are longer lasting and almost permanent.

Longer lasting effects - as roots are destroyed

Laser hair removal Belfast results in long lasting hair removal because the laser is focussed on unwanted hair-roots which become weakened and eventually fall off. Though the follicles remain, hair production rate is considerably reduced. Since the hair grows in cycles, multiple treatments yield optimum results.

Complete treatment - essential for better results

With laser attacking hair-roots and disabling follicle, hair growth is reduced. But several treatments - some six-to-seven treatments - spaced from four-to-six weeks - are definitely needed for satisfactory results. Even as you see thinning of hair right from the start, when you receive your fifth or sixth treatment, you will feel smooth all over from laser hair removal Belfast.

Get the best treatment from experts

All the advantages of long lasting laser hair removal Belfast can be best obtained if only you go for the treatments from dependable and reputable clinics like Laserase Medical Skincare Clinic run under the able guidance of experienced and skilled surgeons. They offer the best advice on treatment:
