Alpklyftan is a healthcare corporation, which works for the benefit of mankind and direct them towards positive change and development. We have a purpose to build up a unique relationship with the people who come to us for help and treatment. Å–ppenvÅ¥rd GÅ¶teborg services include numerous medical treatments such as observation of the patients, IV therapy, treatment of the injury and medication services. It also takes account of the diagnostic treatment and activities related to the surgeries. X-ray technique, laboratory practices, Magnetic Resonance Imaging or in short MRI, calculation of Bone Density and special private clinics also fall within the regime of Å–ppenvÅ¥rd GÅ¶teborg. The Å–ppenvÅ¥rd of our center is situated in King's Stone.

Currently our health center has about 25 therapists who work full time to treat the patients with some problems. We carry out our HVB GÅ¶teborg business in Villa Park, which is located in Keillers Park on Ramberget in Gothenburg. The place has a breath taking scenic beauty calmness. Our patients and also the doctors can come here regularly without any difficulty as this place is at the center of Gothenburg and can be communicated from every place with ease. We also have more than a few boende GÅ¶teborg in the vicinity of this center. These are the places where the authorities of the health care and also the trainer of our center live. We also arrange for trÅ¶ningslÅ¶genhet GÅ¶teborg from a lot of private owners.

Alpklyftan has a few fundamental rules for their staff. We provide top quality behandling GÅ¶teborg to all our patients and offer them broad range of resolution for every problem. Our employees are flexible enough to give you the best of services. We want to build an association where our clients can feel that they are our first priority and we have their requirements in mind. We offer youthful people services to fulfill their requests, to realize their conditions and to motivate them in their life. Our center has at all times two staff on responsibility around the timer for HVB division. Our health unit comprises of social workers, family analyst, and behavioral therapist. We also have amusement, customs and sports instruction teacher. All the staff has average knowledge of more than 10 years. We only appoint people for treatment who are very accomplished therapists and are experienced in working with young community for along time.

Our familjehem GÅ¶teborg services are extended for the customers who need this very much. We constantly assess and scrutinize ourselves so that we get the prospect to improve. Our motto is to get better health care result for the customers. We will recommend our familjehem GÅ¶teborg to our clients that are exemplified by assurance, capability and admiration towards the patients. We have HVB GÅ¶teborg in various places like Kville, Gamlestaden and FrÅ¶llunda, DelsjÅ¶n.

Professor Arnold Goldstein has developed ART GÅ¶teborg in the USA. ART or Aggression Replacement Training is a flourishing technique, which is applicable for the behandling ungdomar. This therapy is best suitable for the violent and criminal youth. It is based on behavioral remedial approaches that focus on altering some characteristic of the negative and harmful behavior.
