Protect Your Pets from Parasitic Infections and Diseases – Revolution for Cats and Dogs by [Atul Sharma](#)

Article published on March 27th 2012 | [Health](#)

Revolution for Dogs and Cats can give your pet ultimate relief from the continuous itching and infections caused by ear mites, fleas, ticks and other such parasitic infections and diseases. Dogs are constantly at risk from diseases like mange due to which they lose their hair and suffer from intense itching caused by allergic reactions to mites. They may even develop crusting that makes them vulnerable to even more infections. On the other hand, cats are susceptible to hookworms and roundworms that can easily be passed on to humans in extreme cases. So to keep your pets healthy and free from these problems, you need a parasiticide that will prevent and protect them from parasitic attacks and infections. Here are their three top benefits:

### 1. Eradicates parasitic infections:

Since pets like cats and dogs are more prone to diseases like heartworm caused due to different parasitic invasions on their bodies; you need to take measures to prevent them before they do any serious damage to you or your pet. Parasites like ear mites, fleas, ticks etc. can create strong itching sensation in your pets and need to be treated immediately. With Revolution for Dogs and Revolution for Cats, you can prevent your pets from getting infected.

### 2. Prevents the infections from passing on to humans:

When you have a pet at home, it's impossible not to get in touch with them often. Therefore, the parasites infecting them might get transferred to a human being's body through physical contact, which could result in serious infection and illness. Revolution for Dogs and cats is not just for the safety of your pets, but for your safety as well.

### 3. Protection from a wide variety of parasites:

Revolution for Cats as well as dogs can offer you with relief to a wide variety of problems associated with parasites. Rather than purchasing separate medication for ticks or ear mites, you can resort to Revolution that offers you many benefits in one. It kills adult fleas, prevents flea from hatching eggs, controls and treats ear mite infection, sarcoptic mange and prevents heartworm disease.

Revolution for Cats and Dogs can be the answer to your prayers if your pet is sick. However, Revolution is an FDA-approved medication available only through a veterinarian's prescription. Your veterinarian is the best source of information to ensure the proper healthcare of your pet, and ensure that you consult him or her first in case your pet is sick.
