Article published on February 7th 2012 | [Home Business](#)

The very last six months alone has seen a great increase in use of on line URL shortners. URL shortening sites are used to shrink long links. So for illustration,

if you have a very long link akin to:

<http://eeexample.com/thisissnexamaple/page4/thisisanexample/page5/thisisanexample/page6/thisisanexample/page7>

(which has a lengthy 107 characters)

You can use an on line URL shortener to shrink your url to something like:

<http://adf.ly/ad34p> (that has only 18 characters)

or...

<http://bit.ly/bts345g> (that has no more than 20 characters)

Adfly and Bit.ly, are free of charge to utilize. The main distinction between Adfly and Bit.ly, is that Adfly shortened links make you cash. That is, on every occasion somebody clicks on your Adfly shortened link, you will make money. Favorably, Adfly links are shorter than Bit.ly urls, this is for the reason that Bit.ly is steadily turning into an over-populated service. I myself have used both Adfly and Bit.ly, and have found them both to be unfailing services, though I prefer Adfly due to the cash generating opportunity it presents. So how much money can you make with Adfly? It's a good and justified question. The sum of money you can earn with your Adfly urls depends on where the people that click your Adfly links are located.

The average rate of pay is \$4.00 per thousand clicks. \$4.00 may appear insignificant, but just reflect for a moment. How many individuals utilize Facebook? Over 400 million citizens make use of Fb on a daily basis. If you could obtain even a small portion of Facebook people to click on your urls, you could potentially be earning a respectable amount of cash on auto pilot. A terrific way to attract bags of users to click your links is to set up a Facebook group. Several of these groups have over a million users - so if you get your wisdom cap on, you can earn respectable money very rapidly!!! Read on for more advice!

Adfly has an easy going, fast and professional payment procedure that renders earning cash in a fast and efficient way an absolute breeze. Adfly has an easy to reach payment-threshold, so once you have earned \$5 on your Adfly account, your earnings will electronically be translocated into your PayPal or AlertPay account. If you don't possess a Paypal or AlertPay account don't be concerned, they are both free of charge to sign up for and straightforward to use.

The good thing about Adfly is, you can shorten virtually ANY Link you choose to. So say there is a great video on YouTube that everybody is talking about, you can shrink the video's YouTube link with Adfly and then post it on your Facebook status, and if you have a decent number of associates clicking on your urls, you can make decent money. You can also email your urls to other people. You'll be able to post your links on information sites, on instant messenger sites and even on forums. You see my line of reasoning. The promise of getting cash shortening links is boundless and is a brilliant mode of generating more money.

Shorten URLs, and share it with other people for cash!
