Add colors to your kitchen by using wonderful kitchen wall tiles by [Ghar Builder](#)

Article published on April 27th 2012 | [Home Improvement](#)

Kitchen is the place where a woman spends most of the time of her day. It is an essential part of the house, and should be given equal importance as other rooms while designing a house. The family's nutrition comes from that place, so it should be designed carefully and lovingly. The contemporary woman has several responsibilities to handle these days, so it has made the concept of a functional yet easy to maintain kitchen very popular. A modern kitchen is contemporary, designer and efficiently organized. To complement the other aspects Kitchen wall tiles come to rescue when you are looking for beautiful, colorful and easy to maintain walls for your kitchen.

Wall tiles are an evergreen concept, which never goes out of trend and makes you feel good every time you enter your kitchen. The market is opulent with so many colors and designs that one might feel puzzled in making a selection. The color of kitchen wall tiles should complement the color of the kitchen fittings, like the cabinets and furniture etc. You should keep a theme in mind, and design the cabinets and wall tiles according to that. You could use a soothing theme, by using light colored subtle tiles with a shade of blue for cabinets, or you could choose warm theme, by using designer tiles in warm tones. Kitchen wall tiles are available in different textures, colors, tones, sizes and materials. You can choose from ceramic, glass, stone or even metallic tiles. You should prefer those tiles which are easy to clean and look good at the same time. Except natural stone tiles, all other kitchen wall tile textures can be cleaned and maintained easily.

Ceramic tiles are a classic tile option for the kitchen, and will never disappoint you in terms of variety. Various colors and designs are available in ceramic tiles. These kitchen wall tiles are easy to clean, heat resistant and easy to install. You can use tiles of two colors that complement each other, or use two or three different sized tiles. Mosaic ceramic tiles are the best thing to look for in this category. Mosaic tiles are small in size and can be used individually, or along with bigger sized tiles to give them a different and designer look.

Materials other than ceramic are also gaining popularity these days. The urge for something different has made people to use glass tiles, stone tiles and even metallic tiles in the kitchen. Glass tiles are stylish and very easy to maintain at the same time. These tiles also come in various colors and styles which could be customized by you according to your choice and preference. You can also use steel interior for a modern and contemporary look. It is usually employed along with ceramic tiles. So, don't hesitate and explore the wide variety of kitchen wall tiles to make your personal cooking space an exhilarating one.
