When you want your windows cleaned, you want to be able to find it fast and it has to be convenient.

Windowcleaning2you.com.au (powered by Quotes 2 You) has the goal of connecting customers with up to three credible window cleaners fast.

HOW DOES THIS SERVICE WORK FOR THE CUSTOMER?

The goal for this website is to make finding the best local Sydney window cleaner for your task as easy as possible.

So here is how it works...

1. Begin by requesting your window cleaning service using our online questionnaire forms. They are simple and only ask for the info we need to find the right window cleaner for your job. Make sure you fill in as much detail as you can for the service you are looking for.
2. Then we notify up to three (3) window cleaning service providers via sms and email taking into account any previous customer experiences and their proximity to your area based on your postcode provided. This is to ensure you are receiving efficient quotes from local service providers without any padded travel expenses.
3. Sit back watch as up to three (3) services providers contact you and organise to give you a quote. In most circumstances they may require a site inspection before a final quote can be made although best to check individually. You may also use the "Quotes 2 You Supplier Comparison Form" to assist with selecting the right supplier for you.
4. We then follow you up to see how you went and ask about your experience so other people looking for a similar service can be linked with the best window cleaners in Sydney based on your ratings.

How can you be sure you're getting good window cleaners? What does Quotes 2 You do to help?

Good question. We do a basic check on insurance and take into account three major considerations when connecting you with window cleaners.

1. Proximity - As mentioned proximity, we have a unique system of matching suppliers to your area based on your postcode.
2. Job Details - Your job description is first filtered against the window cleaner's preference list then shown to them before they commit to contacting you. This way we can quickly access the suitable cleaner for the size of your job even if it means going across town.
3. Customer Ratings - We're taking into account what anyone who has used these cleaners before in a ranking system prior to contacting them on your behalf. It's intuitive and efficient and means they are not blind leads in most cases.
4. Paying for the privilege - the window cleaners all pay a nominal fee for the privilege of accessing your contact details (only as requested by you). It's industry-specific and agreed to by the cleaners

themselves. IT simply means they place value on you from the start.

Please go ahead and use our service and allow us to positively surprise you with the results. Thank you for reading.
