Garden furniture is the only way to sit in alfresco by [Celina](#)

Article published on February 16th 2012 | [Home Improvement](#)

Everyone is familiar with the advantages of sitting in alfresco because all know very well about its positive impact on our overall health and mind. Because of this reason garden has become one of the most important part of our home. To spend some time in the fresh and cool ambiance of garden we need garden furniture. It has become as important as our indoor furniture. It not only enables us to take the pleasure of outside environment but also enhance the beauty of garden which in turn enhances the beauty of overall home. A wide range of garden furniture is now available in market; generally people prefer only center table, chairs and an umbrella. Other then this some other decorative accessories are also available.

The selection of this furniture entirely depends on your garden's size, budget, and also on your needs. First of all let me talk about the size and number of table and chairs. Size should be according to the size of your garden. Avoid keeping large size of chairs and tables in small garden as it will give congested look and won't let you feel free in your lawn. Next thing is the color and design of furniture. It is always recommended to go for natural colors for patio furniture. Colors of your garden furniture should be matched with the colors of blossoming flowers in your garden. Also it should give you pleasing appearance. Other then chairs, benches are also a substitute that you can choose for sitting purpose. Wood or metal is mostly used in case of patio furniture. If you want to fix the furniture in garden for always then marble or stone benches and chairs gives quite awesome look. But it unable to you to change its place.

Another type of patio furniture is umbrella. It is optional furniture to protect you from sunlight and lets you gossip with your lovable once under its shade. Generally it is used in summer season when sunlight is just scorching. It is also very useful in monsoon, as you can take the sip of hot coffee under umbrella while enjoying monsoon.

If you don't have any problem regarding budget then it is nice if you adorn your lawn with some accessories. Decorative items include artificial flowers, statues, outdoor lamps, bird baths, bird houses, fountain, miniature fall etc. In short I would like to say that if you want to spend your morning time listening to bird chirping and with blossoming flowers then just bring garden furniture.
