Get the best roof with the roofing contractors in Toronto by [CherryandClark](#)

Article published on January 9th 2012 | [Home Improvement](#)

Roof not only offers shelter but also a perfect finished roof enhances the beauty of the homes. That is the reason why most people prefer to go for decorative roofs rather than simple looking old fashioned roofs. Especially in the various towns and cities in Toronto, you will find houses having classy looking roofs.

These roofs are usually available from the several roofing contractors in Toronto. Truly speaking, these Toronto based roofing contractors use several materials to give that classy look to your roofs. Now let's take a look what materials do a roofer in Toronto use to achieve your ends:

Asphalt shingles is one of the most popular forms of roofing used in Toronto. This type of roofing is economic and usually

usually lasts longer with no maintenance at all. The asphalt shingles are usually made from organic mats and fiber glass which make them durable. These shingles are also available in various shapes, designs and textures that will surely offer a great look to your roofs.

Slate is another material that is pieced into shingles and used to keep the interiors cool during summers. The roofing contractors in Toronto can provide you with several colors of slates like green, purple, red and many more. But the most used color is the charcoal grey. These tiles may be costly but last for decades and need a small amount of maintenance periodically.

Metal roofs of copper or terne metal are also a good choice for Roofing Brampton. This category of roof goes well with the surroundings and gives an original appearance to the house. Metal roofs of copper or terne metal are also a good choice for Roofing Brampton. This category of roof goes well with the surroundings and gives an original appearance to the house. As copper needs no painting and maintenance, this category of roofing is most preferred for long term standing.

house. As copper needs no painting and maintenance, this category of roofing is most preferred for long term standing.

Wood shingles are also used for roofing in Brampton. This type of roofing is available in compelling shades and attractive designs that offer a rustic appearance to the roof. Wood shingles usually have a longer life only if maintained properly.
