Even if you do not consider yourself to be too green-fingered you may still have heard of Hayter mowers. You may not be intimately acquainted with the Hayter Harrier 41 but you will probably know that the Hayter name is one of the biggest names in the lawnmower industry. With that in mind here is a brief introduction to the influential manufacturer:

Hayter mowers have long been synonymous with high quality grass cutting equipment. The British firm is known for pioneering designs and was the first company to manufacture a rotary lawnmower. Nowadays there are all sorts of Hayter mowers which make it easy to achieve the perfect lawn surface. Obviously the choice depends on a number of factors. The size of the area you need to cut has an impact as those who have to trim the grass on large expanses of land prefer sit-on models.

The fact of the matter is that Hayter mowers are held in high esteem by professional horticulturists and amateur gardeners alike. Due to the firm's reputation for quality its products remain highly sought after by professionals. Gardening companies often invest in Hayter mowers as they need equipment which they know will be durable and long lasting.

Hayter mowers are so popular because anyone who owns a lawn takes pride in maintaining it so that it is as tidy and healthy looking as possible. Therefore things like the Hayter Harrier 41 look set to be in demand for some time to come.

Advice for those in search of genuine Hayter mowers.
