Transform your windows with a stunning set of Plantation Shutters by .

Article published on June 21st 2012 | [Home Improvement](#)

Looking at ways you can give your home a little wow factor? How about fitting interior shutters, theyâ€™d totally transform any room you placed them in. Plantation Shutters are stylish and chic features that look lavish and luxurious. Theyâ€™re much more eye-catching than curtains and are just as practical as blinds but Plantation Shutters are far more stylish.

The finest quality Plantation Shutters grace an interior with their presence theyâ€™re wonderful wooden features that are a delight to behold. If you are looking at ways to inject a little style within you home add Plantation Shutters and youâ€™ll instantly transform the room with stunning stained or painted accessories.

### Types of interior shutters

The styles of Plantation Shutters vary greatly and your new set of interior shutters can be just as unique as your home. Full height Plantation Shutters cover the entire height of the glazing whilst tier-on-tier shutters offer a greater degree of flexibility because you can open and close the top and bottom half of the shutters independent of each other.

Caf  style Plantation Shutters are a good idea if you want privacy on the lower section of your windows and tracked shutters are a fabulous option if you have a large window to cover. Each unique set of Plantation Shutters is made to measure with your needs in mind and they can be operated manually or you could have a motor fitted to the shutters operated by remote control.

### Painted or stained

You have a choice of finishes when you order interior shutters, the frames and louvres could be painted in your choice of colours, whatever shade you have in mind. As well as white and cream Plantation shutters you can specify any other colour that you like to blend in with your home d cor.

Or, if you prefer the natural look the Plantation Shutters could simply be stained so you can still enjoy the grain of the wood. In fact, this is a popular option for people that choose specific types of Plantation Shutters that have distinctive graining as standard. Left natural the Plantation Shutters become gorgeous accessories that are deserving of numerous admiring glances.

Either way, whether the Plantation Shutters are painted or stained they look utterly irresistible.
