Driving Safe Adds to Your Savings on Auto Insurance in Mississauga by [George Lewis](#)

Article published on May 10th 2012 | [Insurance](#)

You might own some of the safest cars, but if you don't drive safe, you might end up paying more for insurance than you would have ideally wanted to. Auto insurance in Mississauga is usually a costly affair, and most people usually pay through their nose to cover their cars against possible accidents or similar issues.

However, car insurance in Mississauga pays drivers that drive safe and are usually the ones with cleaner records and no-traffic violations. By pay, we mean you get to save over hundreds of dollars on your policy, and save much more on your monthly insurance premium that you are doling out to your insurance broker in Mississauga .

So how does driving safe, or rather accidents, affect the kind of coverage you get on your cars? Well, here are some hints "

" The fault " is what defines whether you pay the price for insurance or you get away scot free from the scene of an accident. Usually, when it's an accident where a single driver is involved, the driver is "at fault", thus ending any debate about whose insurance fees cannot be reclaimed and who ends up paying higher insurance premiums from there on.

" Usually, when it is more than one driver involved, the collision or accident needs to be investigated by both insurance guys as well as the police, before concluding who is "at fault". However, note that even if no one is charged, there needs to be someone or something "at fault" which will decide whether the insurance amount is repaid in a claim filed by the one who has been in the accident as well as whether both the drivers' insurance premiums will go up.

These two pointers should be enough for you to understand how important it is for you to be driving safe " even when you may have a safe car that does not have the vulnerability of bikes or smaller vehicles.

There is a provision of having accident forgiveness in the book of many an insurance provider . However, this is a first-time provision, which allows a driver to not pay up higher insurance premiums or be labeled as a high-risk driver the first time he ends up being "at fault" in an accident. This is of course, valid, when the accident does not end in an offense for the driver concerned, and he is not charged or jailed. However, people often mistake this policy as a renewable one " asking for the same in repeated instances of unsafe driving.

You can get away with the accident faults the first time, but this does not mean that the incident is obliterated from the record books. The next time you end up doing the same, car insurance in Mississauga , even with the best auto insurance brokers in Mississauga may end up being way over your budget " all because of your rash driving!

If you are looking for affordable auto insurance in Mississauga, learn to work on your driving skills rather than your persuasive oratory skills " the latter will be of no use for reducing costs for auto insurance in Mississauga .
