Domotico Solutions by [Jennifer Brown](#)

Article published on January 2nd 2012 | [Interior Design](#)

DOMOTICO Solutions is the fastest growing home automation solutions provider offering products and services to residential and commercial establishments. DOMOTICO solutions include but not limited to modular kitchen equipment & automation, home automation equipment & control systems and home automation integration services.

DOMOTICO Kitchen division offers custom made kitchen and bath cabinets; offering the best service available from beginning to end. Our goal is to make a reality all of our customers'™ expectations about their dream home kitchen and bath. We offer web based configuration software to design as per the custom requirements of the customer at competitive prices. DOMOTICO professional designers create a design for your kitchen, closet or bathroom based on your specifications with no obligation. We charge a \$99 USD service fee for these designs that is fully refunded if you choose to place an order with us.

Home Automation Solutions:DOMOTICO brings the hi-end technology products and installs them in work, home and public utility environments, facilitating spectacular, large format AV experience along with the ease of real-time multi level communication and simple to use single control automation.

DOMOTICO integrates a huge array of high tech devices for various specialized applications, our expertise lies in advising, selecting, designing, installing and maintaining the right concepts, systems and products, to meet customer objectives at competitive prices.

Our services:Automation with a custom controller featuring security, HVAC, keypads, infra-red, remote access, and PC software, using the X10, CEBus and EHS standards.
