Get Stuck on Wall Decals to Create a Unique Nursery for Your Newborn by [Ali Abrahamia](#)

Article published on February 23rd 2012 | [Interior Design](#)

Wall decals are a wonderful way to enhance the décor of any room in your house. They provide unique and eye-catching wall displays, and will surely become the topic of conversation when you entertain guests. Great for kitchens and living rooms, decals also make the perfect addition to your nursery. With a variety of customizable designs already available, consider this cost-effective wall design when decorating for your baby, and use the money you would have spent on a hand-painted wall mural towards diapers!

Decals are perfect for nurseries in many ways. Many parents are so overjoyed at their new addition that they want to express it with the lyrics to a favorite song, a heartfelt phrase, or a meaningful poem. The thought of having to paint these words onto a wall by hand is frightening though, and stencils can be tricky to work with. Decals can be installed in minutes, usually by one person, and the outcome looks exactly the same as hand-painted words. Whether you want your nursery to be fun and whimsical or bold and fresh, decals are a great option.

When applied correctly, wall decals can last for years to come, giving you a great return on a small investment. However, as children grow and change, the style of their bedroom can quickly become outdated for their age. Cute puppy dogs give way to trucks and dinosaurs for little boys, and ladybugs are switched out to make room for princesses for many girls. Rather than throwing out costly wall decorations or repainting over an expensive mural, simply redecorate with new decals for pennies on the dollar of what you would normally spend. You will be surprised by the significant difference a change in your wall design and some new bedding can make. Your baby will be able to grow into adolescence with the coolest room, while you can be assured that you are keeping within your budget.

Decals provide many different decorating options, no matter the range of your tastes. One type of decal that most children love is the chalkboard wall decal. Chubby fingers delight in the opportunity to use the vast expanse of a blank wall as their own personal canvas. Instead of vigilantly guarding your child against drawing pictures on your walls with markers and crayons, install a chalkboard wall decal to help foster their imagination. They can create their own scenes to entertain their every whim, and then erase it and start over whenever the mood strikes again. Chalkboard wall decals are also an easy and fun way to encourage your children to practice writing their letters and numbers as they get older.

Consider decals when it is time to decorate your nursery. Place your baby to sleep in his crib at night under the words of a gentle lullaby, or stimulate your child's sensory development with bright colors and shapes. The possibilities are endless and only restricted by your own imagination, Regardless of your design styles, wall decals are always the right choice.
