Transform your bathroom into your personal spa-space by [Robert Meccale](#)

Article published on August 17th 2012 | [Interior Design](#)

How about transforming your regular bathroom space into an interesting recreation area? Does this sound too much? Well, it is technically quite a sensible thing to do- to revamp and re-do your bathroom in a way that you enjoy being in the area and you look forward to your bubble bath every day!

Although bubble bath every day seems like an exaggeration but it is not. You can definitely enjoy a bubble bath every day, instead of waiting for the weekends. All you need is a perfect kind of a bathroom for yourself to ensure the motivation and fascination with the area!

What can you do to turn your monotonous bathroom to look like a beautiful space to chill and relax? You need to first and foremost take care of the furnishing of the area. Paint your bathroom with a glossy paint instead of the regular paint to give the area a feeling of being in a spa. To match the glossy paint, gloss laminate countertop can be installed to store the cosmetics, the toiletries etc. around the sink area. The glossy paint and the matching laminate would make the bathroom look very posh and classy. You would want to take a nice long bubble bath every day as you return from work without a doubt!

You need to pick and choose the spunkiest and the most stylish of fittings available in the market for your bathroom. Just measure the size of your bathroom and buy the best possible sized and shaped bath-tub for your bathroom space. Around the bathtub, install composite laminate countertop and store some of your favorite magazines and books along with your favorite wine to read and drink as you enjoy your bubble-bath! Who wouldn't want to forget the world and just relish the bubble bath if one gets to relax with one's favorite book and drink every evening!

The last thing that you need to do to make sure that your bathroom is no less than a daily spa place for you is to have beautiful fragrance and music in the area. Music is extremely helpful in relaxing oneself. Nice fragrance also helps in enlivening the senses after a long day's work. Place your music system, some nice DVDs of your favorite music on the decorative laminates countertops installed in the area. Light some scented candles, hang/keep a nice room freshener and place some indoor plants by the window in your bathroom to make sure that the area smells fresh and welcoming. You will enjoy your bubble bath thrice more than what you would otherwise, if you have nice music and nice fragrance in the area enticing your mind, body and soul!
