How to Use TeenMing by [Teen Ming](#)

With all the people who connect to the internet is almost a requirement for some sort of media connectivity. If you go online just to read the message or because they use e-mail should start with more problems, a social networking account. Twitter and Facebook are very popular forms of social networking sites, and it is always better to have an account with the most popular. Logically, the most popular best known by others, and most people know, it just means that more people use it. But Today Teen Ming is very popular forms of social networking websites and it's always best to have an account at the most popular one. Why? Simply because Teen Ming is popular. Teen Ming makes your school unique, popular, and attractive and No. 1 in your city. We provide a cheap, safe, secure and reliable ERP system for your school children and staff. This is a portal for school students enable them to communicate each other, share ideas, discuss, chat, connect with their circle.

So if a college friend, that for a while or not someone wants to know more, can be seen Teen Ming deliver but enough about Teen Ming, because this message is the use of Teen Ming. The site itself may give instructions, but some of them are not clear enough.

Making an Account

Well, this is the first step is to visit. Visit TeenMing.com and enter the required information. Do not start writing in the upper right, and you have an account, fill in the information needed at each stage and voila! You have your own.

You begin to ask friends to join via e-mail address so we can only give information. Do not worry. Everyone does. Very soon you can begin to invite friends, simply by the Search tab in the upper right corner of the screen or by entering your full name or e-mail if no work can be requested if they only use Teen Ming and invite you. Teen Ming offers a variety of ERP systems in the coins in the school. Make an online network of students and staff in your home.

Editing Your Profile and Uploading Your Picture

Other than start adding friends, one of the things that you should start on is putting information on your profile page so that people know the person behind the account.

Therefore, click the profile in the upper left corner of the page and you will have your own profile page. You can start with the "Write something about yourself service. Click it and you can get an overview of what you are writing. You can press the" information "from the profile page and start filling in data sheets. When finished, save the changes.

Now that your information is there, you upload a profile photo. You can use any picture you want, but it would be better to use a good photo of yourself.

Click the box in the upper left corner and click Change Picture. You can use the button, load the image and a hat to a folder on your computer or can "Picture" option if you have a webcam connected to your computer.
